

## WE ARE BURAQ

At BURAQ Landscape & Construction, our profoundly experienced staff is consistently prepared to transform an unused or untidy scene into something that everybody can appreciate constantly! Regardless of whether it is a nursery that requires a full patch up with various viewpoints included, or a straightforward lawn garden re-try for you to appreciate time with your family, we can help you with every one of your necessities.

Today, we have grown into a full service landscape management contractor serving multi-unit communities such as Master Associations, Condominiums, Home Owner Associations.

## Irrigation Design and Installation

Irrigation system design and installation is a task that requires an experienced project manager. It is not a do-it-yourself project by any means, due to the technical nature of the components involved. Hiring a door knocking contractor will not bring satisfactory results or an ongoing commitment to success like you are guaranteed when you work with us. We are the best choice for irrigation design and installation. Our professional landscape crews have received many prestigious awards for their projects. We will design a custom system appropriate for your lawn and beds. We do not work by guessing; we know what to do.

## Commercial Irrigation and Water Management

Nothing is more essential to the success of your landscape than water. Without proper irrigation, your property will never reach its full potential or could even fail. It is as simple as that. If you have battled with a property that looks average (or even below average) in the past, improper watering is one possible cause. Saving water is easy. But when you have an out of date or neglected system in place, it can be quite the contrary. From smart controllers and remote site management to rain sensors and drip irrigation systems, Native Land Designs irrigation and water management professionals are well versed in our industries most advanced irrigation technologies. We can help maintain the beauty of your site sustainably while lowering utility costs and reducing water and wastewater usage.

## Landscaping and Irrigation

Does Your Landscape Have a Drinking Problem? Many people use more water outdoors than indoors over the course of a year. Efficient irrigation practices and water wise landscape planning and planting can make a huge difference. Home Water Works has helpful information on how to keep your landscape looking beautiful while staying water efficient.

## Water Features Retaining

Water in the Landscape Water can turn an ordinary landscape into a peaceful oasis. They can provide a soothing retreat and a beautiful focal point within your overall landscape. Water features can attract birds and other wildlife. The sound of trickling water creates a place of quiet serenity and a sense of

privacy. Ponds and Fountains Bring the Landscape to Life Retaining wall water features can also be active and exciting, like a waterfall cascading over a natural rock formation. The sight and sounds of water-in-motion, flowing, spilling or cascading, can be a dramatic landscape enhancement. Splashing fountain, shimmering pool, no matter how simple or elaborate, water features can add a new dimension to your landscape.

## **Sod Installation**

Growing a lawn from grass seed takes patience, effort, and the right weather conditions. Why not get a great-looking lawn now with sod installation from Buraq? Our sod installation experts have years of experience in nurturing gorgeous, healthy lawns for our customers. For sod lawn installation you can trust, look no further than The Grounds Guys near you.

## **Maintenance Golf Courses**

As the nation's premier landscaping company, Buraq is the preferred partner for golf course maintenance nationwide. Our tried and tested processes and procedures consistently provide improvements in course quality, reductions in cost, and improved crew training - all resulting in an improved player experience. GMS has the expertise to manage your entire golf course maintenance operation. Our difference is complete transparency with our partners. A company comprised of golf course Superintendents, we have the experience to create maintenance standards that set you apart in your specific market. We then develop detailed and efficient budgets that insure the maintenance standards are delivered consistently to create raving fans and complete membership / guest / customer satisfaction with every visit.

## **Commercial Turf Care**

The appearance of turf can deeply affect the appearance of your business. Healthy, green, and beautiful turf can increase your curb appeal a great deal. Brown and patchy turf, however, is far less attractive. Healthy turf is only possible through consistent, detail-oriented maintenance and care—which is exactly the kind of care that Buraq offers on every visit.

## **Walls and Fence Landscaping services**

Quality timber fencing can secure the borders of any home, and give structure and framework to any garden. We have a variety of strong durable timbers that can be stained and weather treated to suit the design of any garden. We offer traditional rectangle panels, as well as curved edge panels, and decorative trellis that encourage climber plants and creepers. We use concrete gravel boards and posts, secured in concrete which means the lifetime of your fence is assured and won't suffer damage caused by rot. Plus, if a timber gate within the fencing is required, we have a variety of designs to choose from together with the locks and fittings. At Buraq the fencing we prepare and install is designed to give security, withstand poor weather conditions, yet is pleasing to the eye and positively frames any garden or outdoor living area.

## **Lighting Christmas**

It just is not Christmas until you begin to see twinkling lights hanging from the rooftops, wrapped around poles and sparking in trees! From large to small, we can make any size home look fantastic. Whether it's roofline, landscape, or tree lighting, we will turn your home into a festive winter

wonderland. Our staff of Christmas light installers are experts in the field of residential Christmas light installation and holiday decorating. We will be happy to provide you with decorating ideas or turn your existing ideas into a reality. Get started with a free estimate and design consultation today!

## **Lighting Winter Services**

Winter Lighting Installation Let Buraq take care of not just your landscape during the summer, but also during the Winter. Buraq will purchase all the essential materials needed to spruce up your home during the winter months, setup your decorations, remove them, and also store them during the Spring and summer months.

## **Landscape Lighting**

A Landscape Lighting system will boost your home's security and add value. Our high-quality, low voltage, environmentally conscious LED lighting solutions can maximize the appeal of your home and landscape, providing an outdoor lighting system that is beautiful, practical, and trouble-free. Our expert team is well prepared to help develop, preserve and restore a distinctive lighting design that is most flattering to your house, garden, and landscape, no matter what your landscape lighting requires.

## **Snow Removal**

Residential We know that ice and snow will wreak havoc on a house, if not properly removed throughout the winter months. Buraq will provide snow removal services to keep your home safe and your lawn beautiful in winter and the following seasons. We also offer snow blowing service and snow shoveling service to keep walkways, decks, and patios clear of snow and ice. At Snow & Ice Management Services, we offer our commercial snow removal services to many types of businesses. We know commercial snow removal demands experience and reliability. The winters of Illinois and Chicago can be unpredictable at best. These extreme conditions can cripple your businesses and bring commercial properties to a standstill. Cold weather increases complications in everyday logistics for even the simplest of tasks.

## **Snow shoveling**

Buraq Snow shoveling provides you complete snow removal packages. We look forward to serving you and keep your outdoor environment snow-free this coming winter season. Our goal is to provide excellent customer service keeping 100% satisfaction between you and our company. You have peace of mind knowing you are working with a locally owned and operated company. We take snow removal very seriously. No matter what winter may bring, you can rest assured we will make sure your property remains accessible and safe. All of our Snow Removal Services can be customized to meet the needs of your home, commercial property, or living community.

## **Cleaning of walkways**

Don't let just anybody handle your sidewalk cleaning, now. Otherwise, you just might wind up with shoddy results that don't benefit your home or you in any way. Instead, leave your sidewalk cleaning in the hands of the local pressure washing professionals at Buraq. We guarantee to provide local homeowners with the highest quality of workmanship and the best quality of customer service they'll find in the area. Check out our customer reviews page, and you'll see that that's a guarantee we

maintain with every project we undertake. You might also check out our latest projects gallery to see picture proof of the thorough workmanship we provide.

## **Salting**

Buraq is the only name that you need to know, in order to get the salting service that you need. Yet, what many people still have to be convinced about is why they should be signing up for salting service in the first place. When winter weather moves in, it seems that the best way to deal with it is in a prompt and professional manner. Fail to do so and you could end up stuck or, even worse, being injured. As a property owner, the last thing that you want is for you or someone else to end up being injured on your grounds. Be it residential or commercial, play it safe and smart and set up plans for salting, before the need arrives.

## **Earth Work**

We are proud to be a one-stop shop for our customers, delivering a complete set of site development, project management consulting, and heavy highway construction services. Our focus is always to build our customers' trust while delivering quality results accurately and in a timely manner. We encourage you to explore the pages listed below to learn more about our specific contracting services and our unmatched capabilities.

## **Concrete Work**

We are proud to be a one-stop shop for our customers, delivering a complete set of site development, project management consulting, and heavy highway construction services. Our focus is always to build our customers' trust while delivering quality results accurately and in a timely manner. We encourage you to explore the pages listed below to learn more about our specific contracting services and our unmatched capabilities.

## **Safety**

Construction sites include a large number of hazards for workers and those nearby. Safety management at Buraq helps oversee the daily activities around construction projects both large and small. With increasing inspection rates by OSHA occurring on job sites, our experts deliver daily safety meetings, conduct audits of programs and activities and interface with construction managers and subcontractors. Construction is a fast-paced industry, but that does not mean that regulations can be ignored. Buraq is here to provide consulting during the design and planning phases of projects for better business processes.

## **On Job Training**

Construction project managers have an important job in keeping construction projects moving smoothly from start to end. These professionals need a strong understanding of modern construction management ideas and regulations as well as acumen in managing people, time, challenges, materials, costs, and more. Since managers are involved in every aspect of a construction project, they must have the skills to manage each stage of development. Buraq is always doing it to train its managers and employees on job.
